

10/510056

Listing and Amendments to the Claims

DT04 Rec'd PCT/PTO 04 OCT 2004

This listing of claims will replace the claims that were published in the PCT Application:

1. (currently amended) Video apparatus comprising :
  - a connector (~~2 ; 22 ; 42~~) for receiving a video signal and having at least a first pin carrying a first signal, at least a second pin carrying a second signal and at least a third pin (~~16 ; 36 ; 56~~) carrying a signal indicative of which of the first signal and the second signal defines the video signal at a given point in time,
  - transmission means coupling the first pin and the second pin to a video circuit (~~18 ; 38 ; 58~~) able to operate with at least two types of video signal,
  - detection means (~~4 ; 24 ; 44~~) connected to the third pin (~~16 ; 36 ; 56~~) for determining a characteristic of the video signal based on the indicative signal,
  - control means (~~4 ; 24 ; 44~~) responsive to said characteristic for sending a control signal (~~CTL ; 26 ; 54, 66~~) whereby the video circuit (~~18 ; 38 ; 58~~) is forced to operate with one of said types of video signal.
2. (currently amended) Video apparatus according to claim 1, wherein the third pin (~~16~~) is coupled to the video circuit (~~18~~) with interposition of a switch (~~6~~) and wherein the switch (~~6~~) is controlled by the control signal (~~CTL~~).
3. (currently amended) Video apparatus according to claim 1, wherein the control means (~~24 ; 44~~) and the video circuit (~~38 ; 58~~) are linked at least via a bus (~~26 ; 54, 66~~) able to carry the control signal.
4. (original) Video apparatus according to claim 3, wherein the control means has means to modify parameters in the video circuit thereby forcing operation in one of said types of video signal.
5. (currently amended) Video apparatus according to ~~any of claims 1 to 4~~ claim 1, wherein the control means has means to modify parameters in the video circuit thereby altering video processing by the video circuit.

6. (currently amended) Video apparatus according to ~~any of claims 1 to 5~~ claim 1, wherein the video circuit ~~(18)~~ comprises means ~~(14)~~ for recording said video signal.

7. (currently amended) Video apparatus according to claim 6, wherein the control means ~~(4)~~ is further responsive to a selection made by the user.

8. (currently amended) Video apparatus according to ~~any of claims 1 to 5~~ claim 1, wherein the video circuit ~~(38)~~ comprises means ~~(30)~~ to convert the video signal into a digital stream.

9. (currently amended) Video apparatus according to claim 8, wherein the video circuit is a video decoder ~~(30)~~.

10. (currently amended) Video apparatus according to ~~any of claims 1 to 5~~ claim 1, wherein the video circuit ~~(58)~~ comprises a display ~~(64)~~.
